Re: Highway 89 Storage Units Site

Dear Messrs. Wolthuis and Munsee:

Howard Kent contacted me and asked me to provide you information regarding the United States Environmental Protection Agency's (EPA) response action at the Highway 89 Storage Units Site (Site), which includes the storage facility that is subject to the sale from Mr. Kent to Mr. Munsee.

As you are undoubtedly aware, EPA is currently undertaking a response action pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) at the Site. This includes several storage units at the Willard storage facility. This action is being undertaken in accordance with the Action Memorandum and Action Memorandum Amendment, the decision documents that EPA has prepared to document its response action at the Site. I have enclosed these documents for your reference. As you can see from the decision documents, EPA's goal at the Site is to address the threat of release from the Site posed by the various waste materials present at the Site.

Pursuant to an agreement finalized today between EPA and ATK Launch Systems, Inc. (ATK), ATK will be taking over the response action at the Site. The work performed at the Site by ATK will be pursuant to a work plan that ATK will submit to EPA for approval pursuant to

the agreement. It is our anticipation that the approved work plan will be implemented over the course of 1-2 weeks. I will forward you a copy of the agreement between ATK and EPA shortly.

If you have any questions, please feel free to contact me. I can be reached by phone at (303) 312-6916.

Sincerely,

Sheldon H. Muller  
Enforcement Attorney
